While John & I catalogued today, the Police Chief came up & told me that there was a young couple in Mary Milligan's office & they were looking for some Carbondale ancestors. I showed them volume II of NP&FLHR & they -- and the Chief of police & Mary Milligan -- were very impressed. I took them up to the CPL and showed them the Maplewood issue of NP, & they were ecstatic. They are: Kyle Pierdomenico, 66 Maple Lane, Cleveland, OH - 47202 - 216-562-5727. A nice young couple. I think all the Maplewood issues are gone, but if I can locate one I will send it to them. I gave them a copy of the Carbondale Calendar 1983 & also a copy of I, 5 of the CHSM Newsletter.

11:45 P.M. - already the gallon of yogurt that I mixed up only a few hours ago has "set" -- "grown".

It appears that I will have at least 4 pumpkins on my tree vine -- already a couple of them are about the size of volleyballs. About six butternut squash also; the ears are forming nicely on the popcorn & the strawberry corn. The gourds are growing very nicely as well -- it should be a bountiful harvest. There are ^{about} two gourds that are enormous -- about 11 inches long -- with the rounded part at the bottom  about 6" in diameter -- possibly larger. Several gigantic sunflowers are blossoming now -- they are at least 10 feet tall and will have very large heads on them. Dwp asked the other day if my cornstarch/gourds/pumpkin/squash/corn, etc. might be used to decorate the downtown of the Church at the post-wedding dinner on 11-23-85. SRP: "Certainly!"

to the Carbondale News

- wrote and delivered a "Clinton" release for this ^{coming} week's News; drove to Scranton & picked up the books that the "Bookseller" didn't want (she wanted one box for \$25.00) and gave them -- the rejects -- to the Salvation Army store in Eynon.
- Returned to Elkdale & made whole wheat/Barley bread -- which I baked at the Golf Course at about 8 PM (after Holly arrived) -- I baked half of the bread in the iron frying pan that she gave me.

I am very proud of
I, 5 -- and am of
I, 2 - I, 3 - I, 4.

I did them
all; RGT did
I, 1, and, I must
say, that it is an
embarrassing document.

- Ran into Arthur Pinum in Scranton. It appears that he will restore the D & H Gravity Shop. It should be "final" by the middle of next week. He gave me the "plan" that are shown hereafter. What a miracle it will be if he can do this restoration.

The bread was an unqualified success: I left several loaves of the bread at the Golf Course, and WSP & HRP made several enthusiastic comments to me about the bread -- WSP hid a piece/loaf so that he could have it with his late afternoon snack on the following day. Very gratifying.
